

# Infection Preventionist Regional Trainings

Monday, May 20 – Jonesboro

Tuesday, May 21 – El Dorado

Wednesday, May 22 – Little Rock

Thursday, May 23 – Springdale

**Check-In:** 8:30 a.m. – 9:00 a.m.

**Training:** 9:00 a.m. – 2:00 p.m.

**Registration Fee:** \$100, Lunch & Materials Provided

**Upon completion of this workshop, participants will be able to:**

- Understand the role of the facility-level IP and gain knowledge to add value to infection control policies and procedures addressing ASP, environmental disinfection, outbreak management, hand hygiene, barrier precautions, and indoor air quality.
- Be able to describe to staff the “why” behind hand hygiene compliance and enhanced barrier precautions to minimize the risk of exposure to multidrug-resistant organisms.
- Differentiate situations that support the use of Contact Precautions, Enhanced Barrier Precautions or Standard Precautions.
- Recognize the role of antibiotic stewardship in the emergence of multidrug-resistant organisms (MDROs) and promote appropriate antibiotic use among healthcare providers in your facility.
- Implement 2 evidence-based environmental disinfection protocols to prevent the spread of infectious diseases.
- Adopt 3 new skills for outbreak management, including surveillance, investigation tools, and control measures.
- Gain introductory knowledge of indoor air quality monitoring and a healthcare facility’s Heating, Ventilation, and Air Conditioning (HVAC) System.

**Continuing Education Units:** 4.25 contact hours will be requested
